STANDARD/GUIDELINE/ADDENDUM ANALYSIS SHEET

RECOMMENDATION TO BOARD OF DIRECTORS FOR APPROVAL TO PUBLISH PROPOSED STANDARD/GUIDELINE/ADDENDUM

1.	STANDARD NUMBER & TITLE:	BSR/ASHRAE Standard 147P *Reducing Emission of Halogenated Refrigerants in Refrigeration and Air Conditioning Equipment and Systems*
2.	CHAIR:	Warren Beeton
3.	COGNIZANT TC:	3.8 – *Refrigerant Containment*
4.	PUBLIC REVIEW DATES:	March 23, 2001 – May 6, 2001
5.	COMMENTS RECEIVED:	2 comments from 1 commenter
6.	UNRESOLVED COMMENTS:	No unresolved comments.
7.	PC APPROVAL VOTE:	7-0-0-3
8.	STDC APPROVAL VOTE:	TO BE VOTED IN ATLANTIC CITY

9. PURPOSE

1 PURPOSE. This standard recommends practices and procedures that will reduce inadvertent release of halogenated refrigerants.

2 SCOPE. The practices and procedures in this guideline cover emission reduction of halogenated hydrocarbon and halogenated ether refrigerants:
(a) from stationary refrigeration, air-conditioning and heat pump equipment and systems,
(b) during manufacture, installation, testing, operation, maintenance and disposal of equipment and systems.
